You Have Suffered Enough Now It Is Time to Heal

Victims of stealth abuse are unable to recognize what is happening to them while it is occurring. They know that something is wrong with the way they are being treated but cannot figure out exactly what it is. Unable to pinpoint the abusiveness of the stealth abuse they are receiving, they are unable to recognize it as harm or equity.

The abusers are highly skilled at choosing stealthy tactics to avoid detection. They decry the idea of being detected as abusers or being accused of abuse. They do not want to appear as abusers in society. They would rather be seen as the victims of the equations of harm.

Abuse campaigns work best when not evident to the general public. The public believes that they are seeing the good side of the abuser when looking at them on social media or at other times. The abuser is at liberty to operate freely and achieve their goals when others do not see the stealthy tactics the abuser is using to achieve them.

Abusers use stealth tactics to trick their victims into thinking that the abuser is not harming them.
